

Make a Gift! Make an Impact!

Yes! I want to make an impact on the next generation of explorers!

Vanderbilt Dyer Observatory is focused on our mission to inspire student and public interest in science through experiencing the wonders of astronomy and space exploration.

Exploration has been at the heart and soul of America's history, economic strength and world prestige. It is vital for our country to continue to pursue exploration aggressively so that we maintain America's stature and competitive edge in the world. Making science a priority will inspire, motivate and create the next generation of explorers.

We are striving to affect the lives of more students and teachers and are actively seeking to find more ways to be able to do that. One of the most tangible expressions of our work is seen in our efforts to help develop the next generation of American explorers.

We are a non-profit organization sustained by the generosity of its members, friends and neighbors. It has been a great year of significant steps under the leadership of our Executive Director, Rick Chappell and our Board President Irby Simpkins. Your gift will make a tremendous difference to our efforts to bring science and exploration to the next generation.

There are many ways to support Vanderbilt Dyer Observatory and each gift is valued and used to its fullest. Here are ways you can help:

Stellar Contributor:

Orion (\$100 – \$249)

Polaris (\$250 - \$499)

Orion (\$500 - \$999)

Exploration Society:

Milky Way (\$1000 - \$4,999)

Andromeda (\$5,000 - \$9,999)

Supernova (\$10,000 and above)
